

## Bittaford Village Hall

In the year to 31 March 2024 use of the facility continued its recovery post covid with income from bookings increasing by 29% on the previous year's figures.

Given the lack of organisations particular to Bittaford itself the Hall Committee has continued to encourage use by a wider community, attracting regular bookings from U3A, family parties and other associations in the Ivybridge area. A competitive rate of hire helps to sustain bookings but as with most financially independent organisations a review of charges is likely in the 2025 financial year.

As has been highlighted in previous years the age range of the range Hall Committee is a cause for some concern. A campaign to attract new blood is planned for the near future, fingers crossed it will be successful.
